Transcending the classroom to transform lives
The Global Consulting Program (GCP) prepares students for the global business community they'll enter upon graduation. At each GCP location, students partner with foreign business students to research and propose solutions for local companies, learning business problem-solving techniques, and gaining international consulting experience.

Mandatory language and cultural training take place throughout the semester prior to departure, as well as an intensive consulting training program. Faculty who travel with the students serve as mentors, empowering them to develop sustainable solutions while navigating the dynamics of a multicultural team.

“*My favorite experience at Ohio University was the Global Consulting Program. I grew and learned so much during the two weeks in France. I developed a more refined professional personality, gained a lot of autonomy, and became more independent...GCP gave me a leg up as far as getting an interview for an internship since it provides real life experience and cultural empathy.*”

-Adam Cellar, ‘13

**SELECTION PROCESS**

GCP is a selective program, with priority given to students with strong academic records and demonstrated professional behavior. Depending on qualifications, an interview may be required.

For more information about application opening dates and deadlines, and complete instructions on how to apply, visit our website at business.ohio.edu/gcp.

**PROGRAM CREDIT**

GCP satisfies both global perspectives and internship requirements at the College of Business.

Students receive credits for the following courses:
- BA 4940: Global Consulting Training
- BA 4905: Seminar in Global Consulting
- BA 4915: International Business Experience

**PROGRAM FEE**

Students are responsible for the following:
- Air travel to the site
- Ohio University tuition and fees
- On-site meals and incidentals
- Program fee

The program fee covers operational costs for the program and includes lodging, cultural activities, health insurance, and program administration.

Scholarships are available, including:
- College of Business GCP need-based scholarships
- Ohio University Office of Global Opportunities offer scholarships

*In 2015, OHIO’s College of Business awarded nearly $80,000 in scholarships for students to participate in GCP programs.*

92% of program alumni recommend the program
